

PREVENTION IS BETTER THAN CURE!

AS A FRIENDLY REMINDER, WE WOULD LIKE TO CALL YOUR ATTENTION TO A FEW POINTERS TO ENSURE GOOD CARD SECURITY.

PERSONAL IDENTIFICATION NUMBER

Each card has a unique identification number.

This number is strictly **confidential** and must never be disclosed by its user.

Make sure that the P.I.N. (personal identification number) appears absolutely nowhere on the user's card; writing the number on the card is a very unsafe practice and even puts the protection of the card at risk, in the event of loss.

Keep in mind that you are always responsible for the use of any cards by a third party and/or in your possession.

Accordingly, you should maintain an updated list in order to have absolute and constant control over all your cards.

OUR HELP DESK IS ALWAYS AT YOUR DISPOSAL 1 888 871-4404; ANY CARD REPORTED LOST OR STOLEN WILL ALLOW US TO CANCEL IT, THUS SAVING YOU A LOT OF HEADACHES!

PREVENTION IS BETTER THAN CURE!

Finally, upon receipt of your invoices, you should carefully review all your transactions. If you notice any irregularity in a transaction, you should report this concern, as soon as possible, to our help desk.

Counting you among our customers means a whole lot to us; however, your security and peace of mind means even more! So please help us to help you – Watch out for your own interests; it is all a matter of sound common sense.

THANK YOU FOR YOUR ATTENTION AND HERE'S TO EXCELLENT CARD SECURITY CONTROLLING!
