

Operation Toys 2008

For a 20th year, the refinery has collected used toys from among its employees and the people of Québec's South Shore. Once they are cleaned, repaired, and gift-wrapped, the toys are given to underprivileged children through community organizations. Last December, 115 volunteers, employees and their spouses participated in this event and distributed over 460 presents before the holiday season. We are proud to say that since the first collection, we have given out close to 6,000 toys to underprivileged children.
